ACKNOWLEDGMENTS

The Ministry of Environment, Lands and Parks wishes to acknowledge three partners whose contributions were invaluable in the completion of the *Aboriginal Water Rights Report Series:*

The Ministry of Aboriginal Affairs, was a critical source of funding, support and direction for this project.

The U-Vic Geography Co-op Program, was instrumental in providing the staffing resources needed to undertake this challenging task. Through the services of June Whitmore and her office, the project benefited from the research, writing, editing and co-ordination of these outstanding students:

Jas Gill
Julie Steinhauer
Kelly Babcock
Daniella Mogus
Miranda Griffith
Christina Rocha
Rachel Abrams
Elizabeth Lee
Sara Cheevers

The services of Clover Point Cartographics Limited of Victoria, was responsible for the preparation of most of the map drawings, which form a valuable part of these documents.

In addition to these three key partners, I must acknowledge the valuable contributions of other Water Management staff, past and present, including Jack Farrell, Jim Mattison, Richard Penner, Diana Jolly, Greg Blaney, Gary Lucas and Kim Johnston.

The sheer numbers of First Nations groups' with histories of water rights made the completion of the Report Series seem, at times, prolonged. The determination, patience and vision of the partners was essential in the completion of the Series and is gratefully acknowledged.

Gary Robinson
Project Manager
Water Management Branch

FIRST NATIONS WATER RIGHTS REPORT

BAND: Ashcroft Band

ADDRESS: P.O. Box 440, Ashcroft, B.C., VOK 1AO

CHIEF: Mae Boomer

PHONE: 453-9154 **FAX:** 453-9156

AFFILIATION: Nlaka'pamux Nation Tribal Council

LOCATION:

The Ashcroft Band occupy four reserves in the vicinity of the Village of Ashcroft:

105 Mile Post No. 2	Ashcroft No. 4
McLean's Lake No. 3.	Cheetsum's Farm No. 1

Water rights have been allocated on each of the four reserves. 105 Mile Post 2 is the largest reserve, totaling 1,386.7 hectares in area. The Reserve is located adjacent to the Thompson River, and west of the Village of Ashcroft.

Cheetsum's Farm 1 is the second largest of the four reserves and is comprised of 198.4 hectares. Cheetsum's Farm 1 is situated on the banks of the Thompson River, southwest of the Village of Ashcroft.

McLean's Lake 3 is a 198.3 hectare reserve located on the southern banks of McLean Lake. Ashcroft 4 is located directly adjacent to 105 Mile Post 2, and is comprised of 135.2 hectares.

The most recent population figures compiled by the Ministry of Finance show the Ashcroft Band to have a population of 46 persons living on-reserve as registered members. The Bands' total population, including registered and non-registered members living on- and off-reserve, is reported as 201.

The four reserves of the Ashcroft Band are located in the Interior Plateau region of British Columbia and are classified as occurring in the Bunchgrass Biogeoclimatic Zone. The reserves lie at elevations ranging from 1000 feet to 3500 feet above mean sea level, and experience a climate in which average daily temperatures range from lows of -10

degrees centigrade in January, to highs of 20 degrees centigrade in July. Average annual rainfall in the area totals less than 30 centimetres.

Water courses of significance include:

- Mahasket Spring and Tingley Spring - located in the southwest portion of 105 Mile Post 2 Reserve.
- Martley Brook and Martley Spring - located on the Ashcroft 4 Reserve.
- Bonaparte River - flows south through the settlement of Boston Flats, and drains into the Thompson River.
- Cornwall Creek - flows south from McLean Lake, running adjacent to both 105 Mile Post 2 and Ashcroft 4 Reserves, and drains into the Thompson River.
- Minaberriet Creek - flows northeast alongside Cheetsum's Farm 1 Reserve and drains into the Thompson River.
- Cheetsum Creek - a tributary of Cornwall Creek. Cheetsum Creek flows south through Cheetsum's Farm 1 Reserve and drains into the Thompson River.

WATER ALLOCATIONS:

There are no records of water allocations made by either the Indian Reserve Commission or by the Lieutenant Governor-in-Council (Order-in-Council) with respect to the Ashcroft Band.

The water rights of the Ashcroft Band have been determined by three actions of government over the years:

1) Determinations of the Board of Investigation under the *Water Act, 1914* in response to claims of the Department of Indian Affairs. In rendering determinations the Board often required that water licenses be issued.

2) Granting of water licenses in response to Federal Government applications requesting authorization for the use of water on reserve lands.

3) Actions to amend, cancel or record as abandoned, licensed rights, pursuant to provisions in the *Water Act*..

HISTORY, CURRENT STATUS AND NOTES:

The history of water rights, the current status of rights, and notes for the Ashcroft Band with respect to the water courses on 105 Mile Post 2, Ashcroft 4, Cheetsum Farm 1, and McLean Lake 3 are as follows:

105 MILE POST 2

History:

Jul 18, 1921 At a final hearing of the Board of Investigation, the Board determined that on the 26th day of September, 1888, an application was filed in the office of the Dominion Lands Agent at New Westminster, B.C., for a water record from an unnamed springs, for use on Ashcroft Indian Reserve No. 2. The Order of the Board, Numbered 4594, set out that a conditional license should be issued which would:

(i) provide for the diversion of water from unnamed springs on the southerly portion of Ashcroft Reserve No. 2;
(ii) take precedence from the 26th day of September, 1888; and
(iii) authorize the diversion of a maximum of 135 acre feet per year for the irrigation of 45 acres of 105 Mile Post Reserve No. 2, provided that 5,000 gallons per day, year-round was available for domestic use.

Note: The Board Orders' reference to an "unnamed spring on the southern portion of Ashcroft No. 2" was interpreted to pertain to two Springs which occur in the southern portion of the Ashcroft #2 Reserve. As defined in Final License 9817 the Springs are currently known as: "Mahasket Spring" and "Tingley Spring".

Apr 24, 1924 The Comptroller of Water Rights issued Conditional Water License 7498, which embodied the terms and conditions set out in Board Order 4594.

Jan 16, 1926 A letter was received from the Department of Indian Affairs by the Chairman of the Board of Investigation. The letter was comprised of "a further list" of claims to water which the Department requested be abandoned. In reference to the "Ashcroft I.R. No. 2*[1]" reserve, the letter states that an I.R.C allotment dated August 10, 1881, recorded in the Dominion Lands Office at New Westminister, September 26, 1888, allocated 200 inches*[2] of water from Bonaparte River. The letter goes on to state that:

"The claim to this record was withdrawn by former Indian Agent Mr. John F. Smith, as it is not economically feasible to obtain water from the Bonaparte River for this reserve. According to a Provincial survey it would be necessary to carry the water by ditch and flume for a distance of 18 miles in order to obtain a supply from this source".

*[1] Note: "Ashcroft I.R. No. 2" is believed to be known as 105 Mile Post No. 2 today.

*[2] Note: The reference to an inch of water is understood to be a "miner's inch" of water. The Water Act of 1914 defined a miner's inch as being equal to a flow of .028 cubic feet per second. This rate of flow calculated over a 120 irrigation period converts to the an equivalent off 6.664 acre feet for each miner's inch.

Jul 15, 1929 The Comptroller of Water Rights issued Conditional Water License 10081, appurtenant to "20 acres of the South portion of Ashcroft Reserve No. 2". The license was given a date of precedence of April 29, 1929, and authorized the diversion of 60 acre feet per annum (from April 1 to September 30) from Martley Spring. Clause (14) of the license states that:

> *"This license does not authorize the construction or maintenance of any works upon, or the use or occupation of, any lands belonging to the Crown in the right of Canada unless and until such construction or maintenance is approved or such use or occupation authorized by the Minister of the Interior."*

Dec 10, 1936 Based on the extent to which the rights granted under Conditional Water License 7498 were exercised, the Comptroller of Water Rights issued Final Water License 9817 (in substitution of Conditional Water License 7498) to the Superintendent General of Indian Affairs, on behalf of the Ashcroft Band. The license was assigned a date of precedence of September 26, 1888 and authorizes the diversion of 105 acre feet per year (from April 1 to September 30) from Mahasket and Tingley Springs, for domestic and irrigation purposes on 35 acres of 105 Mile Post Reserve 2. Of the 105 acre feet allocated, 2000 gallons per day, year-round, is authorized for domestic use.

Dec 10, 1936

Based on the extent to which the rights granted under Conditional Water License 10081 were exercised, the Comptroller of Water Rights issued Final Water License 9818 (in substitution of Conditional Water License 10081) to the Superintendent General of Indian Affairs, on behalf of the Ashcroft Band. The license was given a date of precedence of April 29, 1929 and authorizes the diversion of 54 acre feet per year (from April 1 to September 30) from Martley Brook for irrigation purposes on 18 acres of 105 Mile Post Reserve No. 2.

Martley Brook was originally referred to as Martley Spring (refer to CL 10081), but is currently known as "Martley Brook". This is reflected on Final License 9818.

Dec 20, 1991

The Comptroller of Water Rights issued Conditional Water License 102565. The license was given a date of precedence of September 24, 1986, and authorizes the diversion of 1,200 acre feet per annum (from April 1 to September 30) from Bonaparte River for irrigation purposes. The appurtenant lands are defined as 105 Mile Post Reserve No. 2 and Ashcroft Reserve No. 4, of which 400 acres may be irrigated.

July 23, 1993

All unrecorded waters of Bonaparte River, and its tributaries were reserved by Order-In-Council. The OIC stipulates that the water of the Bonaparte and its tributaries are reserved:

> (a) for the use of the Crown for conservation purpose to protect the fishery resource; and
>
> (b) in order to make provision for a water supply for an irrigation project.

The OIC provides that the water covered under the Bonaparte Reserve may be acquired if utilized for the purposes stated above, or alternately, for industrial (stockwatering) purposes.

Legal interpretation (dated 24 February 1997) of OIC 979/1993 indicates that issue of licenses on Bonaparte River or on its tributaries, may continue, <u>but</u> all licenses must be issued "subject" to the Reserve. Subsequent to the establishment of the Bonaparte Reserve the Ashcroft Band was issued Conditional License 102721, "subject to OIC No. 979/1993", authorizing irrigation use.

June 27, 1996 The Comptroller of Water Rights issued Conditional Water License 102721. The license was assigned a date of precedence of December 6th, 1986, and authorizes the diversion of 150 acre feet per annum (from April 1 to September 30) from Bonaparte River for irrigation purposes. The water authorized for use must be taken from the storage provided in Bonaparte Lake under CL 103065. The appurtenant lands are specified as 105 Mile Post Reserve No. 2 and Ashcroft Reserve No. 4, of which 50 acres may be irrigated.

The rights granted under CL 102721 are only authorized during such times as the licensee remains a member of the Bonaparte Dam Water Users' Community.

Current Status:

Mahasket and Tingley Springs:

The license held by the Ashcroft Band, Final License 9817, is the only active license on Mahasket and Tingley Springs.

No current information exists on the file of Final Water License 9817 to indicate the extent to which rights authorized under this license are being exercised.

Water Survey of Canada has no records of streamflow on Mahasket and Tingley Springs. No current information on water availability was located for the Springs.

Notes:

1. The issue of Final Water License 9817 (which substituted Conditional Water License 7498) resulted in a reduction of licensed water rights for the Ashcroft Band.

2. Under current licensing practices Final Water License 9817 would be issued for irrigation and waterworks purpose. The amendment of the license to include waterworks purpose, would qualify the Mahasket and Tingley Springs drainage area for the designation 'Community Watershed' under provisions contained in the Forest Practices Code.

Martley Brook and Spring:

The license held by the Ashcroft Band, Conditional License 9818, is the only active license on Martley Brook.

No current information exists on the files Final Water License 9818 to indicate the extent that rights authorized under this licenses, are exercised.

The Water Survey of Canada has no records for Martley Brook or Martley Spring, and there is no other current information on water availability.

Notes:

1. The issue of Final Water License 9818 (which substituted Conditional Water License 10081) resulted in a reduction of licensed water rights for the Ashcroft Band.

Bonaparte River:

There are currently 100 licenses active on the Bonaparte River, one of which is held by the Ashcroft Band. Of the 100 licenses:

- 71 authorize the use of water for irrigation purposes, ranging from 0.99 to 1,200 acre feet of water per year.
- 24 authorize the use of 500 to 5,000 gallons of water a day for domestic purposes.
- 1 authorizes the use of 250 acre feet of water per year water for non-power storage purposes.
- 5 authorize the use of water for enterprise purposes, ranging from 500 to 26,000 gallons a day.
- 3 authorize the use water for residential lawn/garden purposes, ranging from 0.90 to 3 acre feet of water per year.
- 2 authorize the use of water for stockwatering purposes, from 500 to 1,00 gallons a day.
- 2 authorize the use of water for waterworks local authorities, ranging from 225,500,000 to 393,071,420 gallons a year.

- 1 authorizes the use of 14,300 acre feet water for conservation - stored water purposes.
- 1 authorizes the use of 50 gallons a day for conservation - construction works purposes.
- 1 authorizes the use of 14,870 gallons a day for pond purposes.

Note: Some licenses authorize the use or diversion of water for more than one purpose.

The Ashcroft Band hold Conditional Water License 102565, which is fourth in priority on Bonaparte River, and Conditional License 102721, which is ninety-first in priority. There is no recent information on file with respect to the exercise of rights under these licenses.

An Engineer's Report, dated October 11, 1991, stated that a history of water shortages in terms of the maintenance of flows for steelhead and salmon, existed on the Bonaparte River.

On July 23, 1993 an Order of the Lieutenant Governor in Council reserved all the unrecorded waters of Bonaparte River and its tributaries for the use of Crown for conservation purposes, including the protection of the fishery resource, and the provision for a water supply for irrigation projects. The water reserved may be acquired for the purposes for which it is reserved (fisheries flow maintenance or irrigation), or may be acquired for industrial (stock watering) purpose under licenses "subject" to the reservation.

The Water Survey of Canada recorded streamflow at Bonaparte River below Cache Creek (Station 08LF002) from 1911 to 1990 and at Bonaparte River near Cache Creek (Station 08LF060) from 1960 to 1974. Over the course of this period, station 08LF002 recorded a minimum daily discharge of 0.129 m^3/sec (4.56 cubic feet/sec) on September 14, 1987, and a maximum daily discharge of 84.3 m^3/sec (2976.97 cubic feet/sec) on June 16, 1990. The mean monthly discharges reached a low of 1.69 m^3/sec in December, and rose to a high of 15.1 m^3/sec in May. Station 08LF060 recorded a minimum daily discharge of 0.193 m^3/sec (6.82 cubic feet/sec) on December 24, 1962, and a maximum daily discharge of 28.6 m^3/sec (1009.98 cubic feet/sec) on May 28, 1962. This station reported low mean monthly discharges of 1.67 m^3/sec in December, which rose to highs of 13.4 m^3/sec, in June.

Notes:

1. There are currently 15 applications outstanding for the Bonaparte River.

ASHCROFT 4

History

Nov 16, 1942

In response to an application submitted by the Director of Indian Affairs on behalf of the Ashcroft Band, the Comptroller of Water Rights issued Conditional Water License 15476. The license has a precedence date of May 19, 1942 and authorizes the diversion of 1,000 gallons per day from Cornwall Creek for domestic purposes. The appurtenant lands are defined as Ashcroft Reserve No. 4.

Apr 1, 1948

Based on the extent to which the rights granted under Conditional License 15476 were exercised, the Comptroller issued Final Water License 12817 (in substitution of Conditional Water License 15476) to the Director of Indian Affairs, on behalf of the Ashcroft Band. The license was assigned a date of precedence of May 19, 1942 and authorizes the diversion of 1,000 gallons per day, year round, from Cornwall Creek, for domestic purposes on Ashcroft Reserve No. 4.

Dec 1, 1966

In accordance with an application made by the Department of Indian Affairs on behalf of the Ashcroft Band, the Comptroller of Water Rights issued Conditional Water License 31630 and 31631. These licenses have a precedence date of May 18, 1966.

Conditional Water License 31630 authorizes the diversion of 4000 gallons a day, annually, from Cornwall Creek for waterworks purposes. The works are defined as consisting of a "pipeline".

Conditional Water License 31631 authorizes the diversion of 6.7 acre feet per annum (from October 1 - June 15) from Cornwall Creek for storage purposes. The works are defined as consisting of a "dam".

Dec 13, 1977

In accordance with an Application for Change of Works for Conditional License 31631, made on behalf of the Ashcroft Band, the Comptroller of Water Rights issued an Order authorizing the construction of "a diversion structure and pipe". The point of diversion was also amended under this Order.

Dec 20, 1991 The Comptroller of Water Rights issued Conditional Water License 102565. The license was given a date of precedence of September 24, 1986, and authorizes the diversion of 1,200 acre feet per annum (from April 1 to September 30) from Bonaparte River for irrigation purposes. The appurtenant lands are defined as 105 Mile Post Reserve No. 2 and Ashcroft Reserve No. 4, of which 400 acres may be irrigated.

Current Status:

Cornwall Creek:

There are currently 15 licenses on Cornwall Creek, three of which are held by the Ashcroft Band. Of the 15 licenses:

- 7 authorize the use of water for irrigation purposes, ranging from 8.66 to 750 acre feet of water per year.
- 4 authorize the use of 1,000 to 2,500 gallons of water a day for domestic purposes.
- 5 authorize the use of water for non-power storage purposes, ranging from 6.7 to 750 acre feet of water per year.
- 1 authorizes the use of water for enterprise purposes for 1,000 gallons a day.
- 1 authorizes the use of water for waterworks purposes for 4,000 gallons a day.

Note: Some licenses authorize the use or diversion of water for more than one purpose.

The Ashcroft Band hold three licenses on Cornwall Creek: Final Water License 12817, which is fourth in priority, and Conditional Water Licenses 31630 and 31631. Conditional Licenses 31630 and 31631 are thirteenth and fourteenth in priority.

The Water Survey of Canada operated station 08FL206 on Cornwall Creek from 1912 to 1931, during the months extending April through September. For this period, the station recorded a minimum daily discharge of 0 m^3/sec (August 22, 1921) and a maximum daily discharge of 0.708 m^3/sec (25 cubic feet/sec) (August 18, 1924). Mean monthly discharges reached a low of 0.015 m3/sec in September, and rose to a high of 0.130 m^3/sec in May.

Notes:

1. The issue of Final License 12817 (substituted Conditional Water License 15476), resulted in a reduction of licensed water rights for the Ashcroft Band.

Bonaparte River

See previous information under **105 Mile Post 2**.

CHEETSUM'S FARM #1

History:

Jul 18, 1921 At a final hearing of the Board of Investigation the Board determined that a valid water record affecting the claim of the Department of Indian Affairs to rights to the use of the waters of Minaberriet Creek and Cheetsum Creek was made under the authority of an Act passed prior to the 26th day of September, 1888. The Order of the Board, numbered 4547, set out that a conditional license should be issued which would:

(i) provide for the diversion of water from Minaberriet Creek and Cheetsum Creek;
(ii) take precedence from the 26th day of September, 1888; and
(iii) authorize the diversion of a maximum of 336 acre feet per year for the irrigation of 112 acres of Cheetsum's Farm Reserve No. 1, provided that 1,000 gallons per day, year-round could be used for domestic use.

Apr 24, 1924 The Comptroller of Water Rights issued Conditional Water License 7497, which embodied the terms and conditions set out in Board Order 4547.

Dec 10, 1936 Based on the extent to which the rights granted under the former license were exercised, the Comptroller of Water Rights issued Final Water License 9816 (in substitution of Conditional Water License 7497) to the Superintendent-General of Indian Affairs, on behalf of the Ashcroft Band. The license was assigned a date of precedence of September 26, 1888 and authorizes the diversion of 85 acre feet per year (from April 1 to September 30) from Minaberriet and Cheetsum Creeks, for irrigation purposes on 28.3 acres of Cheetsum Farm Reserve No. 1. Of 85 acre feet allocated, 1,000 gallons per day, year-round, is authorized for domestic use.

Current Status:

Cheetsum Creek & Minaberriet Creek

The license held by the Ashcroft Band is the only active license on Cheetsum Creek.

There are currently four licenses held on Minaberriet Creek. Of these licenses:

- 2 authorize the use of water for irrigation purposes, ranging from 45 to 85 acre feet of water per year.
- 2 authorize the use of 1,000 to 2,000 gallons of water a day, year-round, for domestic purposes.

The Water Survey of Canada has no records of streamflow on either Cheetsum Creek or Minaberriet Creek.

Notes:

1. The issue of Final License 9816, in substitution of Conditional Water License 7497, resulted in a reduction of licensed water rights for the Ashcroft Band.
2. Cheetsum Creek is noted on the Water Licensing Information System (WLIS) as fully recorded.

McLEAN'S LAKE # 3

History:

Apr 24, 1924 In response to an application made by the Director of Indian Affairs on behalf of the Ashcroft Band, the Comptroller of Water Rights issued Conditional Water License 7499. The license authorizes the diversion of 5000 gallons a day from McLean Lake for domestic purposes. The appurtenant lands are specified as McLean Lake Reserve No. 3.

Feb 2, 1938 The Comptroller of Water Rights recorded Conditional Water License 7499 as abandoned. On the license it is stated:

"Abandoned at annual conference on Indian License in 1938."

Further information regarding this abandonment has not been located.

Feb, 19 1992 The Bonaparte Indian Band submitted an application seeking authorization for the storage of water for irrigation purposes and to facilitate the development of a fish hatchery. No correspondence has been retained on file since 1993. The application is still outstanding.

Current Status:

McLean Lake:

There are no existing licenses in effect on McLean Lake.

Application Z 104233, filed by the Ashcroft Band is still outstanding.

The Water Survey of Canada has no records of streamflow on McLean Lake. No other current information on water availability was located during the course of this review.

Notes:

1. There is no evidence that the Ashcroft Band was consulted regarding the abandonment of the Conditional Water License 7499 on McLean Lake.

2. In 1992, the Bonaparte Band filed an application for a license to store water on McLean Lake. The purposes are specified as irrigation and fish hatchery operation (file no. 3002121). This application is still outstanding.

OTHER INFORMATION:

Additional Water Records:

The *Schedule of Indian Reserves in the Dominion, 1913,* is a document published by the federal government, recording each Band's water allocations up to 1913. It is believed that these records are a compilation of Minute of Decisions, Order-in-Councils, and perhaps other documents; however, as original copies of the documents referenced are unavailable, the dates and information cannot be verified.

Allocations in the *Schedule of Indian Reserves in the Dominion* for the benefit of the Ashcroft Band, which are inconsistent with our findings are:

Reserve	Water Allocation
105 Mile Post 2	*"200 inches from the Bonaparte River."* This water record was abandoned by the Indian Commissioner for BC on January 16, 1926 (refer to Bonaparte River - History for further details).
Cheetsum's Farm 1	*"30 inches of water recorded from the lower part of Minaberriet Creek, and 20 inches from the spring near Cheetsum's house, and from all other sources of water supply on the reserve."* Board Order 4547, which stated that a bona fide application for a record of water from Minaberriet Creek and Cheetsum Creek, appears to have been initiated as a result of this record of allocation. However the quantity authorized under the Board Order is greater than the amount (30 inches/200 acre feet per annum) stated in the Dominion's Schedule.
McLean's Lake	*"25 inches of water recorded from the stream flowing into McLean's Lake."* The Ashcroft Band was granted the right to use 5,000 gallons a day for domestic purpose. This allocation is significantly more than the amount of "25 inches" stated in the Dominion Schedule.

* Note: The reference to an inch of water is understood to be a "miner's inch" of water. The Water Act of 1914 defined a miner's inch as being equal to a flow of .028 cubic feet per second. This rate of flow calculated over a 120 irrigation period converts to the an equivalent off 6.664 acre feet for each miner's inch.

Groundwater Records:

A review of records maintained by the MELP - Groundwater Section found that 3 wells have been reported on Ashcroft Reserve No. 4 and 7 wells reported on 105 Mile Post No. 2. The wells on the Ashcroft No. 4 Reserve reportedly yield small amounts of water, ranging from 3 to 12 gallons per minute. The wells on 105 Mile Post No. 2 are also reported to yield small amounts, ranging from 18 gallons per minute to 35 gallons per minute. The extent to which the wells are currently utilized is unknown. Further details have been appended to the report.

As the provision of well information to the Groundwater Section is voluntary, this review should not be assumed to be complete.

Alternate Water Sources:

The proximity of 105 Mile Post Reserve No. 2 and Ashcroft Reserve No. 4 to the Village of Ashcroft presents the potential for water supply to the reserves via connection to the Village's municipal water system.

Reports on the water consumption in 1994 indicate that the Village of Ashcroft experienced a peak daily demand in excess of 1,929,333 gallons, which is within their authorized maximum daily allowance for waterworks.

The close proximity of the Thompson River to 105 Mile Post 2 and Cheetsum's Farm 1 makes it a possible alternate source of water.

Fisheries:

The Minute of Decision of the Indian Reserve Commission stipulated that the Ashcroft Band has

> *"the exclusive right of fishing on both banks of the Thompson River from the mouth of Minaberriet Creek upstream a distance of 1/2 mile."*

ORDER OF THE LIEUTENANT GOVERNOR IN COUNCIL

Order in Council No. 0979 , *Approved and Ordered* JUL 23 1993

Lieutenant Governor

Administrator

Executive Council Chambers, Victoria 21. JUL. 1993

On the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and consent of the Executive Council, orders that the unrecorded waters of Bonaparte River, and its tributaries, which drains into the Thompson River within the Ashcroft Water District, are hereby reserved as follows:

(a) for the use of the Crown for conservation purpose to protect the fishery resource, and

(b) in order to make provision for a water supply for an irrigation project

provided that the water reserved may be acquired for the purposes for which it is reserved, or may be acquired for industrial (stock watering) purpose under licences subject to the reservation.

Environment, Lands and Parks

Presiding Member of the Executive Council

(This part is for administrative purposes only and is not part of the Order.)

Authority under which Order is made:

Act and section:- Water Act, s. 44 (1) and (4)

PROVINCE OF BRITISH COLUMBIA. WATER RIGHTS BRANCH. DEPARTMENT OF LANDS.

DETERMINATION AND ORDER.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters of Minaberriet Creek and Cheetsuma Spring Creek in the neighbourhood of Ashcroft, in the Ashcroft Water District.

NOW, on the 18th day of July, 1921, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 14 and 15-3-1) that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, B.C., a bona fide application for a record of water from Minaberriet Creek and Cheetsuma Spring Creek, tributaries of the Thompson River, for use on the Cheetsuma Farm Indian Reserve (No.1 Ashcroft) and that water from the said creeks has been used for beneficial purposes on the said Indian Reserve.

35

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a*.) The sources of the water supply are Minaberriet Creek and Cheetaums Spring Creek, tributaries of Thompson River.

(*b*.) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c*.) The date ~~for~~ from which the said licence shall take precedence is 26th September, 1888.

(*d*.) The purpose for which the water is to be used is irrigation.

(*e*.) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is 336 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is 3 acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f*.) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g*.) The water may be used on the Cheetaum's Farm Indian Reserve (No.1 Ashcroft) of which 112 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h*.) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i*.) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j*.) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930.

(*k*.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

Board Order No. 4547.

PROVINCE OF BRITISH COLUMBIA. WATER RIGHTS BRANCH. DEPARTMENT OF LANDS.

DETERMINATION AND ORDER.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters

of Springs on the Southerly Portion of Ashcroft Indian Reserve No.2

in the neighbourhood of 105-Mile Post, in the

Ashcroft Water District.

NOW, on the 18th day of July, 1921, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 12-3-1) that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, B.C., a bona fide application for a record of water from unnamed springs on the southerly portion of Ashcroft Indian Reserve No.2 for use on the 105-Mile Post Indian Reserve (No.2 Ashcroft) and that water from the said springs has been used for beneficial purposes on the said Indian Reserve.

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a.*) sources of the water supply are unnamed springs on the southerly portion of Ashcroft Indian Reserve No.2.

(*b.*) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c.*) The date from which the said licence shall take precedence is 26th September, 1888.

(*d.*) The purpose for which the water is to be used is irrigation.

(*e.*) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is 135 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is 3 acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f.*) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g.*) The water may be used on the 105-Mile Post Indian Reserve (No.2 Ashcroft) of which 45 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h.*) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i.*) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j.*) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930.

(*k.*) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

Board Order No. 4594.

6

(*l.*) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 5,000 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purpose, such quantity of water (not exceeding ---------- acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of ---------- and it may be stored (accumulated) in a reservoir at ----------

---------- between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (*d*), (*e*), and (*f*) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (*c*) hereof.

(*m.*) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(*n.*) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

.....

.....

.....

.....

.....

3. Pending the issue of the licence hereby authorized to be issued, the terms and conditions of this order shall govern the respective rights of the record-holders or claimants affected thereby.

Made and entered this 21st day of April, 1924.

PROVINCE OF BRITISH COLUMBIA. | WATER RIGHTS BRANCH. | DEPARTMENT OF LANDS.

CONDITIONAL WATER LICENCE.
(IRRIGATION.)

Appurtenant to 20 acres of the South portion of Ashcroft Indian Reserve No. 2.

WHEREAS THE SUPERINTENDENT-GENERAL OF INDIAN AFFAIRS, whose post-office address is Ottawa, Canada.

as owner or lawful occupant of the land hereinafter specified, has applied for a licence to take and use water in the manner hereinafter set out, and has taken all the preliminary steps required of such applicant under the "Water Act" prior to the issue of this licence, and is, under the said Act, entitled thereto:

Now, therefore, in pursuance of the said Act, this conditional licence is issued, granting the licensee hereunder the right to take and use water under the following terms and conditions:—

(1.) The source of the water-supply is Martley Spring, located as shown in the exhibit marked "A" hereto attached.

(2.) The point of diversion from the stream is located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which is attached to the counterfoil of this licence on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(3.) The date from which this licence shall take precedence is 29th April, 1929. 1918 1st Licence

(4.) The purpose for which the water is to be used is irrigation ~~and incidentally domestic use~~.

(5.) The maximum quantity of water which may be diverted for use upon the lands mentioned in clause (7) hereof when all of the said lands are under irrigation is, until lawfully altered 60 acre-feet per annum, and such additional quantity as the District Engineer may from time to time determine should be allowed for seepage and evaporation; and the maximum quantity which may be used on any acre of the said lands in any year is 3 acre-feet: Provided that of the said - - - acre-feet there may be used - - - - gallons of water a day throughout the whole year for domestic purpose.

(6.) The period of the year during which the water may be used is 1st April to 30th September.

(7.) The area and description of the lands upon which the water may be used are 20 acres, comprising part of the South portion of Ashcroft Indian Reserve No. 2.

The extent and location of the said irrigable lands are further shown in the said exhibit "A."

Licence Number 10081

W.R.B. 1004 (1)—Conditional Licence—Irrigation—1M-927-0412

File 086834

(8.) The said lands shall be properly prepared for irrigation and irrigated beneficially from the said works on or before the 30th day of September, 1932.

(9.) Works for the diversion and the carriage of the water as set forth in the exhibit marked "B" which is hereto attached made a part hereof shall be constructed in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

The said construction shall be commenced on or before the 31st day of August, 1929.

The said construction shall be prosecuted with due diligence and to the satisfaction of the Comptroller and shall be completed on or before the 30th day of September, 1932

(10.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

(11.) This licence is supplementary to ..... Licence No. ..... for the diversion of ..... acre-feet per annum from ..... and Licence No. ..... for the diversion of ..... acre-feet per annum from ....., but no more than ..... acre-feet of water (exclusive of the quantity allowed for seepage and evaporation) may be diverted from all sources for use upon the lands described in clause 7 hereof.

(12.) This licence is subject to readjustment when hydrometric surveys have been made of the sources of supply mentioned in clauses (1) and (11) hereof and complete information obtained respecting the requirements of all lands watered therefrom and the licensee shall surrender the licence for amendment when called upon to do so.

(13.) This licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part II. of the "Water Act," and shall be subject to all the provisions of said Act, including especially the provisions of section 74 thereof requiring the filing of proof of the completion of the said works and of making beneficial use of the water as authorized within the time herein prescribed.

(14.) This licence does not authorize the construction or maintenance of any works upon or the use or occupation of any lands belonging to the Crown in the right of Canada unless and until such construction or maintenance is approved or such use or occupation authorized by the Minister of the Interior.

Issued this 15th day of July, 1929

---------- END OF REPORT WELL4400 ----------

2	Deadman's or Halkett Island.	Victoria district, in Victoria harbour.....	"	0·50	Allotted by Joint Reserve Commission, May 4, 1878.
3	Discovery Island.....	Victoria district, the northern portion of Discovery island, east of Victoria.	"	90·00	Reserved by Governor Douglas, June 10, 1863. Confirmed by Joint Reserve Commission, May 4, 1878.
4	Chatham Islands.....	Victoria district, two islands about ¼ mile northwest of reserve No. 3.	"	57·00	Surveyed.
1	Sooke.....	Sooke district, section 8, on left bank of Sooke river, at its mouth.	Sooke.....	65·00	Old reserve confirmed by Joint Reserve Commission, June 11, 1877.
2	.....	Sooke district, section 10.....	"	101·00	
3	Grave-yard.....	Sooke district, part of section 7, Billings' spit.	"	0·03	Allotted by Joint Reserve Commission, June 11, 1877. Surveyed, 1878.
4	"	Sooke district, part of section 73, on the right bank of Sooke river, at its mouth.	"	0·95	

KAMLOOPS AGENCY.

1	Hustalen.....	Kamloops district, at the foot of Adams lake on its left bank.	Adams Lake, Sahhaltkum band.	2,178·00	100 inches of water recorded from East creek and all the water from the other sources of water supply on the reserve. ABANDONED (1925/11/23)
2	Squasam.....	Kamloops district, on the western shore of Adams lake in Agate bay.	" " ..	80·00	10 inches of water recorded from Pass creek. ABANDONED 1925/11/23 In Railway Belt. Approved, May 7th, 1889.
3	Teops.....	Kamloops district, at the foot of Adams lake on its right bank.	" " ..	25·00	10 inches of water recorded from the nearest creek northward from the reserve.
4	Sahhahltkum.....	Kamloops district, on the right bank of Thompson river, at the foot of Little Shuswap lake, in township 21, range 13, west of the 6th meridian.	" " ..	3,200·00	100 inches of water recorded from the creek which flows along the western boundary of the reserve into Neskainlith lake; 250 inches of water from Neskainlith lake; 50 inches from the lake on the high hills westward from the foot of Little Shuswap lake. In Railway belt.
NE SKAINLITH BAND (NOW KNOWN AS NESKONLITH BAND)	4A	"	Kamloops district, on the right bank of Thompson river.	" " ..	334·00 Reserved by Dominion Order in Council of Sept. 30, 1898. In Railway belt.
	5	Stequmwhulpa.....	Kamloops district, on the southern shore of Little Shuswap lake.	" " ..	280·00 The Adams lake reserves are in the railway belt. They were allotted by the Joint Reserve Commission, August 13, 1877. Surveyed in 1878 and 1884. Reserves 1, 2, 3 and 5, approved, May 7, 1889.
	6 & 7	Switsemalph.....	Kamloops district, the northern and southern portions of Switsemalph reserve on Salmon arm of Shuswap lake, in township 20, range 10, west of 6th meridian.	" " ..	766·37 Two reserves on the Salmon arm were allotted by the 318·90 Joint Reserve Commission to the Neskainlith, Adams lake and little Shuswap lake tribes in common. They have since been divided by the Indian agent among the several bands interested. The area of the right of way of the C.P. Ry. containing 23·63 acres in Reserve No. 6 and 11·10 acres in No. 7 has been deducted from the original areas of these reserves.
	1	Cheetsum's Farm.....	Kamloops district, in township 20, range 24, west of 6th meridian, near Ashcroft.	Ashcroft.....	770·00 30 inches of water recorded from the lower part of Minnaherict creek, and 20 inches from the spring near Cheetsum's house, and from all other sources of water supply on the reserve.

Schedule of Indian Reserves in the Dominion—*Continued.*

KAMLOOPS AGENCY—*Continued.*

No.	Name.	Where Situated.	Tribe or band.	Area, Acres.	Remarks.
2	105 Mile Post	Kamloops district, in township 20, ranges 24 and 25, west of 6th meridian, near Ashcroft.	"	3,470·00	20 inches of water recorded from a spring on the reserve; 200 inches from the Bonaparte river and all the water from all other sources of water-supply on the reserve.
3	McLean's Lake	Kamloops district, in township 21, range 25, west of 6th meridian, northwest of Ashcroft.	"	1,003·00	25 inches of water recorded from the stream flowing into McLean's lake. All these reserves are in the railway belt. Allotted by Commissioner O'Reilly, August 10, 1881.
4		Kamloops district, lot 446 and portion of lot 17, Group 1.	"	307·00	Surveyed in 1885. Approved, May 1, 1886. Exchanged by Messrs. Cornwall Bros., for Southdown mountain. See Order in Council, October 10, 1894. The Ashcroft Indians have the privilege of fishing on both banks of the Thompson river from the head of the Black canyon up stream a distance of one mile; also the privilege of fishing on both banks of the Thompson river from the mouth of Minnaberiet creek, up stream a distance of one-half mile.
3	Bonaparte	Kamloops district, portions of sections 34, 35, tp. 21, R. 25, west of 6th meridian, and sections 2, 3, tp. 22, R. 25, west of the 6th meridian.	Bonaparte	477·00	100 inches of water recorded from the Bonaparte river and 50 inches from Hat creek. In railway belt.

Board File

Westminster, Sept. 26, 1888---"30 inches of water from Knife Creek and all the water from the spring and creek which rises above the wagon road and flows through the reserve.

The creek formerly used by Indians for irrigation is reported to have dried up. No source of supply is now known to be available.

Ashcroft I.R. No.2.---I.R.C. Allotment dated August 10, 1881, recorded in the Dominion Lands Office at New Westminster, Sept. 26, 1888--200 inches of water from Bonaparte River.

12-3-1

105 Mile Post

The claim to this record was withdrawn by former Indian Agent Mr. John F. Smith, as it is not economically feasible to obtain water from the Bonaparte River for this reserve. According to a Provincial survey it would be necessary to carry the water by ditch and flume for a distance of 18 miles in order to obtain a supply from this source.

WED/ED.

Yours very truly,

W. E. Ditchburn.

Indian Commissioner for B. C.
